#### 2. Description

Chenghao mini touch screen (CH154HV0A-CT) is a small size capacitive touch screen, using 4-lines\_8bit SPI interface, which can display 65K/262K colors. There is a 1.54 inch color display area of this mini touch screen, which can display 320(RGB)×320 resolution video pictures.

Because this mini touch screen uses IPS liquid crystal display technology, it has a full viewing angle of 80/80/80/80, which means that this display allows users to view the screen with extreme viewing angles close to 80/80/80/80. At the same time, the CH154HV05A-CT is also a wide temperature display screen, which can work in an environment where the temperature is in the range of  $-20^{\sim}+70^{\circ}$ C.

If you need to customize the 1.54 inch color LCD screen, we can also do it. You can get more information by consulting online customer service.
