

40pin SPI RGB LCD Display Module 5.0 inch Industrial TFT Display

Basic Information

Place of Origin: ShenZhen, China
Brand Name: Chenghao/Oem
Certification: ROHS ISO9001 CE
Model Number: CH500FW07A-CT

Minimum Order Quantity: 100 pcsPrice: /

Packaging Details:
All the products are packed in right way to

keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. we also design packages

according to customers' requirements

Delivery Time: 7-15 working days

• Payment Terms: T/T

• Supply Ability: 300Kpcs/month

Product Specification

• Product Namoduleme: Industrial Capacitive Touch Screen

Dot Arrangement: 480x854 Dots

Display Mode: IPS/Transmission/Normally Black

Interface: RGB+SPI
Storage Temp: -30 ~ +80 °C
Luminance: 450 Cd/m2
Pin Number: 40 Pin

• Highlight: SPI RGB LCD Display Module,

40pin LCD Display Module, 40pin Industrial TFT Display

Product Description

40pin SPI RGB LCD Display Module 5.0 inch Industrial TFT Display

5.0 Inch Industrial Tft Display 40 Pin SPI RGB 480x854 IPS Screen

Specification of industrial touch screen monitor

MOdule No	CH500FW07A-CT
Lcd Type	5" TFT+CTP
Resolution	480*854 dots
TFT Interface	SPI+RGB
LUminance	450 cd/m2

Description of full hd lcd display

CH500FW07A-CT is an industrial-grade **liquid crystal display modul**e produced by Chenghao LCD, which is specially designed for a wide range of industrial applications such as industrial equipment, medical equipment, office equipment, laboratory equipment, and payment equipment. It can display images with 16M colors, 480*854 resolution, and the viewing direction is 80/80/80/80 (all viewing angles). The module also has IPS/transmissive/normally black display type, capacitive touch screen with I2C interface, 40-pin FPC pin count CH500FW07A-CT has high brightness and long life, which is a reliable and durable solution for industrial applications.

Quick details of spi lcd display

LCD type: 5" TFT+CTP Resolution: 480*854 dots

Viewing Direction: 80/80/80/80 (all viewing angles) Module size: $75.1(W)\times128.9(H)\times3.625(T)mm$ Active area: $61.56(W)\times109.53(H)mm$ Dot pitch: $0.12825(W)\times0.12825(H)$ mm

TFT Interface: 3 lines 9bit SPI + 24bit RGB interface

FPC Pin NUmber: 40 pins

Touch Panel Type: capacitive Touch Panel

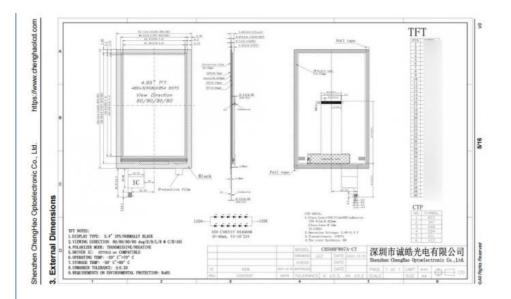

Touch Panel Interface: I2C

Luminance: 450 cd/m2 High Brightness(optional)

Back Light: 12 White LEDs in serial

Life Time: 20000 hours

Use Case: Face Recognition Device Certificates available: RoHS, CE, FCC

Features of 5 inch tft display

High resolution: The CH500FW07A-CT has a resolution of 480x854 dots, providing you with clear and detailed visual displays. Wide viewing angles: With a viewing direction of 80/80/80/80, the display can be viewed from any angle without any loss of image quality. Capacitive touch panel: The module features a capacitive touch panel, providing a responsive and accurate touch experience. High-brightness backlight: Optional high-brightness backlight with 450 cd/m2 luminance enables the display to be easily viewed in any lighting

Excellent compatibility: The module is equipped with a 3-line 9-bit SPI + 24-bit RGB interface, and a 40-pin FPC pin number, making it compatible with a wide range of industrial and medical equipment, office equipment, laboratory equipment, payment equipment, etc.

Why choose us

Supplier Information: We are Chenghao Lcd, an industry and trade integration company located in Shenzhen, China. We have a monthly supply capacity of 300K pieces, providing you with sufficient stock.

Quality Assurance: We have RoHS, CE, and FCC certificates, ensuring that all our products are compliant with relevant safety, health, and environmental regulations.

Professional Service: Our experienced product operators are always here to help you with any product-related inquiries, providing you with prompt and professional service.

Packaging: All our products are packed in the right way to keep them safe, with different packaging methods designed for varying product sizes. Fast Delivery: We offer a delivery period of 7-15 working days, allowing you to receive the products as soon as possible.

FAQ

What is the MOQ of the product?

Our MOQ is 1 piece.

What is the touch panel interface of the module?

The touch panel interface is I2C.

What is the operating temperature range of the module?

The operating temperature range is -20 $^{\sim}$ +70 $^{\circ}$ C (wide temperature).

What is the life time of the backlight?

The life time of the backlight is 20000 hours.

What kind of fields is the module applicable to?

The module is applicable to various fields such as industrial equipment, medical equipment, office equipment, laboratory equipment, payment equipment, etc.
