

## Customized Resistive Touch Screen Monitor 3.5 Inch Digital 24 - Bit RGB Interface

### Our Product Introduction

for more products please visit us on [chenghaolcd.com](http://chenghaolcd.com)

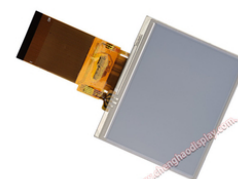

#### Basic Information

- Place of Origin: China Shenzhen
- Brand Name: Chenghao Optoelectronic
- Certification: RoHS CE FCC
- Model Number: CH350QV05A-T
- Minimum Order Quantity: 100 pcs
- Packaging Details: All the products are packed in right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. we also design packages according to customers' requirements
- Delivery Time: 3~7 Days
- Payment Terms: TT
- Supply Ability: 300K pcs/month

#### Product Specification

- Product Name: 3.5 Inch Resistive LCD Display
- Display Storage Temperature: -30~ +80°C
- Display Operating Temperature: -20~ +70°C
- Display Type: TFT Lcd
- Display Resolution: 320\*240 Dots
- Display Interface: Digital 24-bit RGB
- Touch Screen Type: Resistive
- Display Viewing Angle: Customized
- Highlight: **Customized Resistive Touch Screen Monitor, 3.5 Inch Digital Touch Screen Monitor**

## Product Description

### Customized Resistive Touch Screen Monitor 3.5 Inch Digital 24-Bit RGB Interface

#### Product Description:

Our Resistive LCD Display CH350QV05A-T is a powerful and versatile touch screen monitor that offers superior responsiveness and a wide range of viewing angles. Its polarizer mode is Transmissive, with a customized display viewing angle, and a luminance ranging from 200 to 2000 Cd/m2. This display also offers a long lifespan that can range from 20,000 to 50,000 hours, and a USB interface for a touch panel. Not only this, but this resistive touch screen display has an extremely durable and reliable construction, making it an excellent choice for both indoor and outdoor applications. This high-performance Resistive LCD Display is great for a wide range of use cases, including gaming, medical, industrial, and many more. It is a great choice for anyone looking for a responsive, reliable, and durable touch screen monitor.

Module No	CH350QV05A-T	--
LCD type	3.5" TFT	--
Dot arrangement	320(RGB)×240	dots
Color filter array	RGB vertical stripe	--
Display mode	TN / Transmission / Normally White	--
Viewing Direction	6 o'clock	--
Driver IC	HX8238D	--

#### Features:

**Product Name:** Resistive LCD Display

**Display Response Time:** 20 Ms (optional)

**Touch Screen Type:** Resistive

**Display Life Span:** 20000~50000H (Optional)

**Manufacture:** Chenghao Optoelectronic

**Luminance:** 200~2000 Cd/m2

**Keywords:** touch tft displays, touch lcd screen, resistive touch screen monitor

Module size: 76.9(W)×63.9(H)×4.25(T) mm

Active area: 70.08(W)×52.56(H) mm

Dot pitch: 0.219(W)×0.219(H) mm

Interface: Digital 24-bit RGB

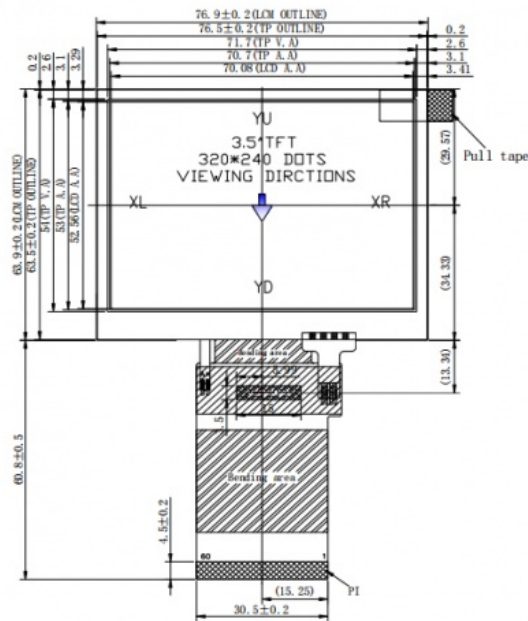

Operating temperature: -20 ~ +60 °C

Storage temperature: -30 ~ +80 °C

#### Technical Parameters:

Parameter	Value
Polarizer Mode	Transmissive
Display Storage Temperature	-30~ +80°C
Display Viewing Angle	Customized
Display Type	TFT Lcd

Display Touch Panel Interface	USB
Luminance	200~2000 Cd/m2
Display Life Span	20000~50000H(Optional)
Touch Screen Type	Resistive
Display Interface	Customized
Display Color	Full Color

## Applications:

Chenghao Optoelectronic's Resistive LCD Display is the perfect choice for businesses and home users. It has a brand name of Chenghao Optoelectronic and is manufactured in China Shenzhen with RoHS, CE and FCC certifications. It has no minimum order requirement and the package is designed to keep the product safe and secure. The delivery time is 3-7 days and acceptable payment methods are TT. The supply ability is 300K pcs/month and the display life span is 20000~50000H (optional) with a storage temperature of -30~ +80°C. The display resolution and viewing angle can also be customized.

Chenghao Optoelectronic's Resistive LCD Display is a great choice for a wide range of applications, such as resistive touch screens, resistive touch displays, resistive touch screen monitors and other LCD displays. With its wide range of features, it is an ideal choice for business and home users alike.

Whether you are looking for a reliable and durable resistive touch screen monitor, a resistive touch display, or an LCD display, Chenghao Optoelectronic's Resistive LCD Display is the perfect choice. With its wide range of features, it is suitable for a variety of applications. It has a brand name of Chenghao Optoelectronic and is manufactured in China Shenzhen with RoHS, CE and FCC certifications. It has no minimum order requirement and the package is designed to keep the product safe and secure. The delivery time is 3-7 days and acceptable payment methods are TT. The supply ability is 300K pcs/month and the display life span is 20000~50000H (optional) with a storage temperature of -30~ +80°C. The display resolution and viewing angle can also be customized.

## Customization:

Chenghao Optoelectronic is the leading manufacturer of Resistive LCD Display with touch tft lcd, resistive touch screen monitor, touch tft displays. Our products are certified with RoHS,CE,FCC and have no minimum order quantity.

We provide customized services for all our products. We have a capacity of 300K pcs/month and delivery time is 3~7 days. Payment terms is TT and all the products are packed in right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. We also design packages according to customers' requirements.

Our products have a life span of 20000~50000H(Optional), display storage temperature of -30~ +80°C, display response time of 20 Ms (optional) and display operating temperature of -20~ +70°C.

## Support and Services:

Resistive LCD Display offers technical support and service to ensure our customers are fully satisfied with their product. Our technical support team is available to help with any technical issues you may have. We offer 24/7 phone and email support. Our team is also available to answer any questions or concerns you may have about your product. We also offer a comprehensive warranty to ensure your product is covered in the event of any defects or malfunctions.

We are committed to providing our customers with the highest quality products and services. Our team is available to help you with any technical issues or questions you may have. We are dedicated to providing a comprehensive and satisfactory customer service experience.

## Packing and Shipping:

### Packaging and Shipping

Resistive LCD Display is packaged with the following materials:

Plastic covering

Anti-static bag

Padding material

Carton

The LCD Display will be shipped using a trusted courier service. All shipments are tracked and insured. The transit time depends on the destination.

## FAQ:

Q: What is Resistive LCD Display?

A: Resistive LCD Display is a type of LCD display technology which uses a resistive touch screen panel that consists of several layers, two layers of thin metallic electrically conductive and resistive layers. It is manufactured by Chenghao Optoelectronic, which originates in China Shenzhen.

Q: What certifications do your Resistive LCD Display products have?

A: Our Resistive LCD Display products have passed certifications such as RoHS, CE, and FCC.

Q: Is there any minimum order quantity for your Resistive LCD Display products?

A: No, there is no minimum order quantity for our Resistive LCD Display products.

Q: How do you pack your Resistive LCD Display products?

A: All the products are packed in the right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. We also design packages according to customers' requirements.

Q: How long will it take to receive the Resistive LCD Display products?

A: Generally it will take 3~7 Days to receive the Resistive LCD Display products.

Q: What payment terms do you accept for Resistive LCD Display products?

A: We accept TT payment terms for Resistive LCD Display products.
