## Product Description

### Product Description:

12 O'Clock Viewng Angle LCD Panel With FPC Connector 150 Cd/M2 Brightness  
Monochrome LCD Display

Our Monochrome LCD Display is a Tn monochrome display that offers an outstanding viewing experience. It features an FPC connector with 50 pins and an operating voltage of 4.8V. Its module size is 67.5\*100.4\*9.7 Mm and its storage temperature is from -30 to +80. It's an ideal choice for applications that requires a high-quality display.

Our Monochrome LCD Display has a number of advantages, including low power consumption, high contrast, allowing for clear and vibrant images. Its backlight system is designed to provide a uniform light distribution across the display.

Our Monochrome LCD Display is easy to install and maintain. It is also highly reliable, providing years of trouble-free operation. It is the perfect display solution for a wide variety of applications, including medical, industrial, and automotive.

### Features:

Product Name: Monochrome LCD Display

Storage Temperature: -30 To +80

Connector: FPC

Polarizer Mode: Transflective

Brightness: 150 Cd/m2

Response Time: 16 Ms

### Technical Parameters:

Attribute	Value
Response Time	16 Ms
Display Type	TN/Positive
FPC Pin Number	50 Pins
Drive Method	1/4 Duty 1/3 Bias
Connetor	FPC
Display Color	Red & Blue & Green & White ...
Module Size	67.5*100.4*9.7 Mm
Operating Voltage	4.8V
Storage Temperature	-30 To +80
Brightness	150 Cd/m2

### Applications:

Chenghao Optoelectronic's CH31X4T01F monochrome LCD display is a reliable, cost-effective solution for a wide range of industrial and commercial applications. Featuring a TN/Positive display type, this monochrome LCD display is available in red, blue, green, white and other colors. It has a brightness of 150 Cd/m2 and a FPC pin number of 50 pins. This LCD display module has been certified with CE / RoHS / FCC, and it comes with a minimum order quantity of 1 pcs. It is capable of supplying up to 5000K pcs/month. All products are packed in the right way to keep them safe, and custom packages are available upon request.

Chenghao Optoelectronic's monochrome LCD display is suitable for a wide range of applications, including automotive, medical, industrial, and consumer electronics. It is reliable, cost-effective, and offers excellent performance for all kinds of applications. With a quick delivery time of 3-5 working days and payment terms of TT or negotiation, this LCD display module is an ideal choice for any customer looking for a high quality, reliable product.
