

10.1inch Vertical Tft Lcd Capacitive Touchscreen 2.8v-3.3v Power Supply

Our Product Introduction

for more products please visit us on chenghaolcd.com

Basic Information

- Place of Origin: China Shenzhen
- Brand Name: Chenghao Optoelectronic
- Certification: CE RoHS FCC
- Minimum Order Quantity: 100 pcs
- Packaging Details: All the products are packed in right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. we also design packages according to customers' requirements
- Delivery Time: 3~7 Days
- Payment Terms: TT or Others
- Supply Ability: 50000000 pcs/month

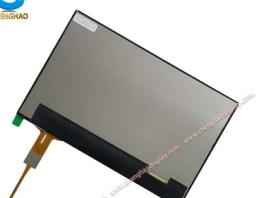

Product Specification

- Contrast Ratio: 800:1
- Resolution: 1280*800 Dots
- Viewing Area: 217.56*136.2 Mm
- Touch Panel Interface: I2C
- Operating Temperature: -20 ~ +70°C
- Touchscreen Type: Capacitive
- Power Supply: 2.8V-3.3 V
- Warranty: 12 Months
- Highlight: tft lcd capacitive touchscreen 1280x800,
2.8v tft lcd capacitive touchscreen,
vertical 10.1 inch capacitive touch screen

Product Description

Capacitive TFT LCD Touchscreen 10.1 inch Vertical Screen 2.8V-3.3V Power Supply

Product Description:

Introducing the thin-film transistor (TFT) capacitive touchscreen CH101WX02B-CTC, a touch TFT display that provides capacitive touch interaction. This tft LCD module has a viewing area of 217.56*136.2 mm, 16.7M color saturation, 800:1 contrast ratio and 260 Cd/m² brightness (optional). Its operating temperature range is -20 to +70°C, suitable for indoor and outdoor applications, and its 50000H design life ensures its reliability and durability. This touch screen is ideal for users looking for a 10.1 inch full color touch display.

Features:

The touchscreen offers 80/80/80/80 resolution and an optimal All Viewing Angle so that the image is still sharp and true even from most angles. Plus, the touchscreen also supports multi-touch sensing, making sure that even the most complex of touch input can be used easily. Additionally, the wide temperature environment makes it possible to use in hot or cold climates, with no effect on performance.

Applications:

Chenghao Optoelectronics' thin film transistor capacitive touch screen (TFT LCD capacitive touch screen) is a high-end display product that can be used in various applications. The model number is CH101WX02B-CTC, manufactured in Shenzhen, China, and certified to CE, RoHS and FCC standards. There is no minimum order quantity required for this product. To ensure product safety, package it in the right way. For small size products, pallets and cartons are used, while for larger sizes, foam troughs and cartons are used. Customized packaging can also be designed according to customer requirements. The delivery time of the product is 3-7 days, payment can be made by TT or other methods. Product supply capacity is 50 million pieces/month. The product has an impressive viewing area of 217.56*136.2 mm, a contrast ratio of 800:1, and a brightness of 260 Cd/m² (optional). It also has a 16ms response time and a backlight profile of 229.45*149.22*4.65mm.

Specification:

TFT LCD Capacitive Touchscreen

Brand Name: Chenghao Optoelectronic

Model Number: CH101WX02B-CTC

Place of Origin: China,Shenzhen

Certification: CE ,RoHS,FCC

Minimum Order Quantity: No Moq

Packaging Details: All the products are packed in right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. we also design packages according to customers' requirements

Delivery Time: 3~7 Days

Payment Terms: TT or Others

Supply Ability: 50000000 pcs/month

Color Saturation: 16.7M

CTP IC: GT9271

Contrast Ratio: 800:1

Backlight Type: 36 Pcs White LED

Touchscreen Type: Capacitive

This product is a Thin-Film-Transistor LCD Capacitive Touchscreen, also known as tft display module, lcd module, or tft display.

Support and Services:

Technical Support and Service for TFT LCD Capacitive Touchscreen

We provide technical support and service for our TFT LCD Capacitive Touchscreen products. Our customer service team is available 24/7 to answer any questions and provide assistance with installation and setup.

We offer a comprehensive support package which includes troubleshooting, software updates, and hardware repair. Our customer service team is highly trained and knowledgeable in all aspects of our products and can provide quick and efficient solutions to any problems.

We also offer extended warranties on our products to ensure that your investment is protected. We stand behind our products and guarantee that they will perform as expected.

Packing and Shipping:

Packaging and Shipping for TFT LCD Capacitive Touchscreen

The TFT LCD Capacitive Touchscreen should be packed in an anti-static bag and then placed in a double layer carton with foam cushioning material to protect it from physical damage during shipping. The carton should be labeled with the product name, model number and other identifying information. The weight of the package should be clearly indicated on the box.

The shipping carrier should be chosen based on the size and weight of the package, as well as the urgency of delivery for the customer.

The customer's contact information, including name, address, phone number and email should be included in the shipping documentation.

FAQ:

Q: What is TFT LCD Capacitive Touchscreen?

A: TFT LCD Capacitive Touchscreen is a kind of display screen technology that combines TFT (Thin Film Transistor) LCD and capacitive touch sensing technology.

Q: What is the brand name of the TFT LCD Capacitive Touchscreen?

A: The brand name of the TFT LCD Capacitive Touchscreen is Chenghao Optoelectronic.

Q: What is the model number of the TFT LCD Capacitive Touchscreen?

A: The model number of the TFT LCD Capacitive Touchscreen is CH101WX02B-CTC.

Q: Where is the TFT LCD Capacitive Touchscreen manufactured?

A: The TFT LCD Capacitive Touchscreen is manufactured in Shenzhen, China.

Q: What certifications do the TFT LCD Capacitive Touchscreen have?

A: The TFT LCD Capacitive Touchscreen has CE, RoHS, and FCC certifications.
