

Medical Lcd 10.1" Tft Capacitive Screen Ce Rohs Certifications

Our Product Introduction

for more products please visit us on chenghaolcd.com

Basic Information

- Place of Origin: China Shenzhen
- Brand Name: Chenghao Optoelectronic
- Certification: CE RoHS FCC
- Model Number: CH101WX02B-CTC
- Minimum Order Quantity: 100 pcs
- Packaging Details: All the products are packed in right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. we also design packages according to customers' requirements
- Delivery Time: 3~7 Days
- Payment Terms: TT or Others
- Supply Ability: 50000000 pcs/month

Product Specification

- Product Name: Medical Lcd Display
- Viewing Angle: 80/80/80/80
- Display Mode: Transmissive/IPS/Normally
- Contrast Ratio: 800:1
- Touchscreen Type: Capacitive
- LCM Connector: MSAK24025P40G(STM) Or Equivalent
- CTP Outline: 228.46*148.1 Mm
- Response Time: 16 Ms
- Highlight: 1280x800 dots tft capacitive screen,
ce rohs tft capacitive screen,
medical tft capacitive touchscreen

Product Description

Product Description:

Medical L 10.1" TFT LCD Capacitive Touchscreen is a high-end display module with 10.1-inch size and 16.7M colors for clear and vivid visual presentations. It has 1280*800 resolution, ensuring the display of exquisite images and videos. The CTP outline is 228.46*148.1 mm, and its viewing angle is 80/80/80/80, offering a wide and comfortable viewing experience. Additionally, this tft display module has a capacitive touch screen, which is highly sensitive and responds quickly to commands. This tft touch screen is perfect for applications such as industrial automation, medical equipment, retail kiosks, and other projects that require high-quality displays and interactive functions.

Module No	CH101WX02B-CTC
Resolution	1280x800 dots
Viewing Direction	80/80/80/80
Luminance	200~2000 cd/m2
Touch Type	Capacitive

Features:

The displays 80/80/80/80 offers an all viewing angle, allowing users to accurately view fixations presented within, no matter what the position is. In addition, the display provides advanced touchscreen technology with multi-touch sensing, providing users with a great flexibility, accuracy, and convenience. It is suitable in different temperature environments. This unique design saves power while extending product life.

Applications:

Chenghao Optoelectronic CH101WX02B-CTC 10.1" TFT LCD Capacitive Touchscreen

Chenghao Optoelectronic CH101WX02B-CTC TFT LCD Capacitive Touchscreen is a perfect combination of a 10.1" TFT Liquid Crystal Display and a Capacitive Touch Panel. It has a wide viewing angle of 80/80/80/80°, and is certified with CE, RoHS, and FCC. It supports I2C touch panel interface, and has a wide operating temperature ranging from -20 ~ +70°C. It can be powered by either 2.8V-3.3V power supply. It is a perfect choice for a variety of applications ranging from automotive, industrial, medical and consumer electronic products.

The CH101WX02B-CTC comes with a high quality packaging that keeps it safe. For small sizes of products, it uses tray + carton, while for bigger sizes it uses foam slot + carton. The packaging can also be customized according to customers' requirements. With no MOQ, it has a fast delivery time of 3~7 days and payment terms of TT or others. Its high supply ability of 50,000,000 pcs/month makes it a reliable and cost-effective solution for high-volume orders.

Support and Services:

TFT LCD Capacitive Touchscreen offers a wide range of technical support and services to ensure your product is functioning reliably and optimally. Our team is available to help with any technical issues, from installation to troubleshooting, to ensure you get the most out of your product.

We provide online resources to help you understand and troubleshoot any issues you may be having, as well as a direct support team of technical experts to help address any questions you may have. Our team will work with you to identify and resolve any issues quickly and efficiently.

We also offer extended warranties to help protect your investment, as well as a service and repair program for any hardware or software defects. Our team is dedicated to making sure you get the most out of your product, and we're here to help whenever you need us.

Packing and Shipping:

The packaging and shipping of TFT LCD Capacitive Touchscreen products should be done carefully to ensure that the devices arrive at their destination in perfect condition. The packaging should be designed to protect the product from the elements and any kind of damage. It should also include all the necessary components and accessories. The shipping should be done using a reliable carrier and tracked so that the customer can track the product's progress.

FAQ:

Q1: What is the Brand Name of this product?

A1: The Brand Name of this product is Chenghao Optoelectronic.

Q2: What is the Model Number of this product?

A2: The Model Number of this product is CH101WX02B-CTC.

Q3: Where is this product made?

A3: This product is made in China, Shenzhen.

Q4: What certifications does this product have?

A4: This product has CE, RoHS, and FCC certifications.

Q5: What is the minimum order quantity for this product?

A5: There is no minimum order quantity for this product.
