

5 Inch Industrial Lcd Monitor All Viewing Angle Ips Tft With Spi Interface

Our Product Introduction

for more products please visit us on chenghaolcd.com

Basic Information

- Place of Origin: China Shenzhen
- Brand Name: Chenghao Optoelectronic
- Certification: CE RoHS FCC
- Model Number: CH500WV05B-CT-PA
- Minimum Order Quantity: 100 pcs
- Packaging Details: All the products are packed in right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. we also design packages according to customers' requirements
- Delivery Time: 3~7 Days
- Payment Terms: TT or Others
- Supply Ability: 50000000 pcs/month

Product Specification

- Response Time: 16 Ms
- Size: 5 Inch
- Contrast Ratio: 800
- Touch Type: Capacitive
- Storage Temperature: -30°C ~ +80°C
- Display Type: Industrial LCD Display
- Touch Panel Interface: I2C
- Operating Temperature: -20°C ~ +70°C
- Highlight: **ips industrial lcd monitor,
tft industrial lcd monitor,
spi interface lcd panel industry**

Product Description

Product Description:

Industrial LCD Display is a 5 inch sunlight readable touch screen display featuring a capacitive touch type that allows easy navigation. In terms of display mode, this industrial LCD display adopts the transmission/normally black mode. It also comes with a storage temperature range of -30°C ~ +80°C, allowing it to be stored in a wide range of temperature. To ensure a smooth operation, the touch panel interface is designed to I2C. This industrial LCD display is perfect for industrial applications, such as SPI LCD and industrial touch screen display, as it provides the user with an excellent visual experience.

Part No	CH500WV05B-CT-PA
Display Mode	Transmissive/Normally Black/IPS
Number of dots	800*480
Viewing Direction	Free Viewing Angle
Backlight Brightness	900 cd/m2
Manufacturer	Chenghao Optoelectronic

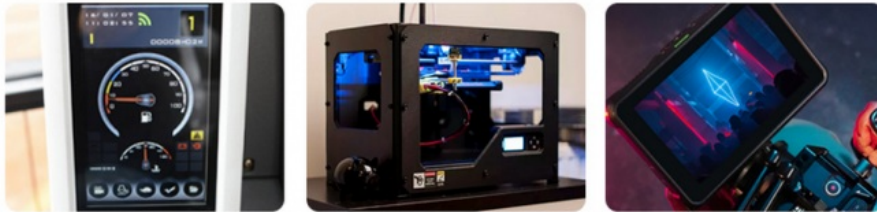

Features:

We provide a range of products that boast advanced features. These products support an SPI interface, PCB control board, multi-touch, IPS full viewing angle, sunlight readable, and wide temperature environment capabilities. This means they can be used across many different contexts, no matter the weather conditions or conditions that require clear visibility. With these products, users aren't limited to a select few contexts or conditions. Customers can use them in various places that require the support of a multi-touch device, clear visibility from varying angles, or usage within extreme temperatures. For example, these products can be perfectly suited for industrial display projects or outdoor kiosks that must have light readability and support a wide temperature environment.

Applications:

Industrial LCD Display, **Chenghao Optoelectronic** CH500WV05B-CT-PA, is a **sunlight readable LCD** with high brightness TFT display and medical touch display, made in **China, Shenzhen**. It is certified by **CE, RoHS, FCC**, and with **no MOQ** required. All the products are packed in right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. we also design packages according to customers' requirements. The delivery time is **3~7 Days**, and the payment terms is **TT or Others**. The supply ability is **50000000 pcs/month**. It has **all viewing angle** and **SPI** LCD interface. It is a 5 inch LCD display with **storage temperature** of -30°C ~ +80°C and **I2C** touch panel interface.

Support and Services:

Industrial LCD Display Technical Support and Service

Industrial LCD Displays are complex products that require a high level of technical support and service. Our experienced technical team is available to provide a wide range of support services, including:

Installation and setup assistance

Troubleshooting and repair

Software and hardware upgrades

Help desk support

Maintenance and warranty services

On-site technical assistance

Our team is dedicated to providing the highest level of customer service and satisfaction. If you have any questions or need assistance, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping an Industrial LCD Display:

The industrial LCD display will be packaged in a box that is lined with foam to prevent any potential damage during shipping. All edges are sealed to ensure the box stays closed and any external labels are clearly visible. The box is then placed into a shipping container that is specifically designed to safely transport the LCD display. The shipping container is also lined with foam and is secured with straps to prevent any potential movement during transit. All necessary labeling and paperwork is attached to the outside of the container for easy identification.

FAQ:

Q1: What is the brand and model of your industrial LCD Display?

A1: Our industrial LCD Display is a Chenghao Optoelectronic CH500WV05B-CT-PA.

Q2: Where is your industrial LCD Display made?

A2: Our industrial LCD Display is made in Shenzhen, China.

Q3: What certifications do you have for this industrial LCD Display?

A3: Our industrial LCD Display is certified by CE, RoHS and FCC.

Q4: What is the MOQ for your industrial LCD Display?

A4: There is no MOQ for our industrial LCD Display.

Q5: How will you package your industrial LCD Display?

A5: We will package our industrial LCD Display with tray and carton for small sizes, and foam slot and carton for bigger sizes. We can also design packages according to customers' requirements.
