

## ST7701 2.1 Inch Circular Tft Lcd Display Round Lcd Monitor

### Our Product Introduction

for more products please visit us on [chenghaolcd.com](http://chenghaolcd.com)

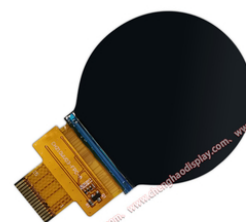

#### Basic Information

- Place of Origin: China
- Brand Name: chenghao optoelectronic
- Certification: CE, ISO9001, Rose, SGS
- Model Number: CH210QV03A
- Minimum Order Quantity: 100 pcs
- Packaging Details: All the products are packed in right way to keep it safe. For small sizes of products we use tray + carton, For bigger sizes we use foam slot + carton. we also design packages according to customers' requirements
- Delivery Time: 3~7 Days
- Payment Terms: T/T, AliPay, PayPal
- Supply Ability: 50000000 pcs/month

#### Product Specification

- Display Area Size: 2.1 Inch
- Driver IC: ST7701
- Response Time: 16 Ms
- Display Colors: 262K & 65 K
- Outline Size: 56.18(w)x59.71(H)x2.3(T) Mm
- Viewing Area: 53.88(w)x53.88(H) Mm
- Brightness: 600cd/m2
- Backlight Color: White LED
- Highlight: 2.1 inch circular tft lcd display, st7701 circular tft lcd display, st7701 2.1 inch tft lcd display

## Product Description

### Product Description:

Round LCD Monitor is a powerful Liquid Crystal Display Monitor that offers excellent image quality and performance, even under extreme temperature conditions. It features a wide operating temperature range of -20 to +70°C, with IPS/Transmissive/Normally Black display mode, and 800:1 contrast ratio for clear and vivid image. It also has an incredible lifetime of up to 50,000 hours and a storage temperature range of -30°C to +80°C. With its advanced technology, Round LCD Monitor provides superior liquid crystal display monitor performance, enabling users to enjoy the best image and video quality possible.

### Features:

Product Name: Round LCD Monitor  
Interface: MIPI  
Resolution: 480x480  
Driver IC: ST7701  
Active Area: 53.28(w)x53.28(H) Mm  
Viewing Area: 53.88(w)x53.88(H) Mm  
Thin Film Transistor LCD  
High resolution  
Wide viewing angle

### Technical Parameters:

Parameter	Value
Storage Temperature	-30°C~80°C
Operating Temperature	-20°C~+70°C
Driver IC	ST7701
Lifetime	50,000 Hours
Resolution	480x480
Response Time	16 Ms
Display Area Size	2.1 Inch
Display Colors	262K & 65 K
Outline Size	56.18(w)x59.71(H)x2.3(T) Mm
Active Area	53.28(w)x53.28(H) Mm
Type	Liquid Crystal Display Monitor (TFT)

### Applications:

Round LCD Monitor from Chenghao Optoelectronic is a highly versatile and reliable display solution for a wide range of applications. With its MIPI interface and viewing area of 53.88 (W) x 53.88 (H) mm, it is ideal for industrial and commercial applications. This model, the CH210QV03A, is certified by CE, ISO9001, RoHS, and SGS, and is available for purchase in minimum quantities of 1 piece. Its 800:1 contrast ratio and viewing direction of 80/80/80/80 provide clear and crisp images even in the most demanding environments. The Round LCD Monitor is packaged with great care to prevent damage, with small sizes of products using tray + carton, and bigger sizes using foam slot + carton. Customized packaging solutions are also available. Delivery time is 3 to 7 days, and payment methods include T/T, AliPay, and PayPal. With a supply ability of 50 million pieces per month, Chenghao Optoelectronic can meet your needs for durable and reliable Thin Film Transistor LCD Display.

### Support and Services:

We provide technical support and services for Round LCD Monitor products. Our team of qualified professionals can answer any questions you may have about the product. We also provide comprehensive warranty for all of our products, so you can ensure that your purchase is protected. In addition, we provide a 12 month after-sales warranty service for our products. If there are any issues with your product, we will help you quickly and effectively solve them.

### Packing and Shipping:

#### Packaging and Shipping of TFT LCD Display

A TFT LCD Display is packaged and shipped in a sturdy corrugated box. Each box is designed to provide adequate protection against shocks, drops, and other forms of damage during transit. The box also contains a Styrofoam insert to keep the display secure and prevent any movement or damage caused by vibration.

The box is then placed inside a larger shipping box for added protection. Additional cushioning material is also included to help ensure the safe and secure delivery of the TFT LCD Display.

### FAQ:

Q&A about Chenghao Optoelectronic CH210QV03A TFT LCD Display
