Product Description

Product Description:

Chenghao Display CH103WX01A is an automotive-grade widescreen LCD panel.

The display has a full-color display area with a diagonal measurement of 10.25 inches and supports 1280*480 high-resolution image quality output. The display also uses IPS display mode, supports 85/85/85 free viewing angles, and the screen brightness reaches 900 cd/m2 luminance, and can operate stably in an environment of -30 ~ +85°C.

If you are interested in this 10.3 inch LCD display, we welcome you to initiate inquiries to our online customer service staff at any time.

Module No	CH103WX01A
Display Type	10.3" TFT
Resolution	1280*480 dots
Interface	LVDS
Color	16.7 M

Features:

Support free viewing angles:

CH103WX01A utilizes the IPS/Transmissive/Normally Black display mode, allowing for free viewing angles of 85/85/85/85. With this technology, users can enjoy a clear view of the screen from nearly any angle.

Support ultra-wide temperature environment:

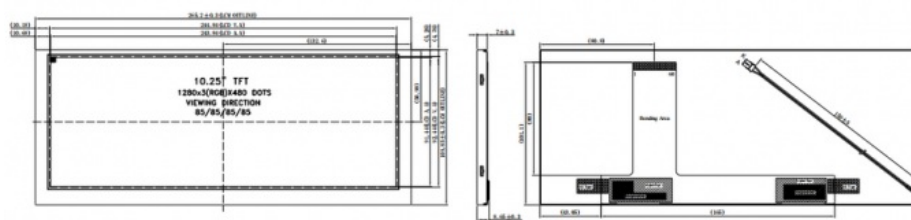

This 10.3-inch car LCD screen is designed to operate smoothly even in extreme temperature conditions. It can operate in environments ranging from -30 ~ +85°C and can be stored safely in an environment of -40 ~ +90°C.

Support Sunlight Readable:

With its 900 cd/m2 luminance rating achieved by the use of advanced backlight technology, this widescreen LCD panel can be used outdoors and still provide good visibility even in direct sunlight. This feature is particularly useful for outdoor displays or monitors.

Support high resolution:

This TFT LCD panel boasts a widescreen design and supports the playback of high-quality 1280x480 pixel videos or pictures. You can enjoy stunning visuals when watching videos or viewing photos on this display.
